

Dear Mr. Berg,

I would like to tell you how much I appreciated the letter of recommendation you wrote for me to the University of Wyoming's Symphonic Orchestra. I haven't had many music instructors so you were literally my last hope. Yet, like always, you delivered.

I would also like to thank you for something else: showing me how wonderful and life changing music truly is. Throughout life I've just gone through the motions, never taking the time to consider that the composer wanted me to gain something much more than what was written on the page. Your styles and methods have opened my eyes, ears, and heart towards music in a way that I never thought possible. I really can't express to ~~you~~ how much that means to me. Thank you. These past few days have been extremely memorable and I look forward to seeing you again this summer.

With Highest Regards,

Andrew Holinger
